## BENEFITS

### Flexible Visit Documentation

- Choose your preferred path for documenting: dictation, textual, pre-formatted forms or templates
- Chart using electronic forms that are built just like those you use now

### Improved Cash Flow

- Reduce costs associated with paper processes
- Improve accuracy in your E&M code documentation
- Reduce costly insurance denials
- Reduce staff time spent following up on claims

### Enhanced Workflow Efficiency

- Instant access to historical clinical patient data, vital signs, lab results, allergies and medications
- Information displayed graphically
- Longitudinal view of the patient record

### Effective AR Management

- Practices have improved their AR aging by as much as 50 percent
- Some practices improved AR to reach a positive ROI within just six months

### Enhanced Patient Safety

- Drug interaction alerts
- Quickly and easily view patient allergy summaries, problem lists and medications

### Robust Management Tools

- Analyze your practice productivity with in-depth reports
- View key indicators to monitor trends in service delivery, discover potential trouble in billing and save time on repetitive reporting tasks

*MicroMD PM is rated #1 in user satisfaction by the Professional Association of Health Care Office Management (PAHCOM) and consistently ranked among the "Best in KLAS" by the independent monitoring firm KLAS. MicroMD EMR Version 5.0 is a CCHIT Certified<sup>SM</sup> product for CCHIT Ambulatory EHR 2006. CCHIT Certified<sup>SM</sup> is a service mark of the Certification Commission for Healthcare Information Technology.*
