

Client Testimonials

Specialty: COMMUNITY HEALTH CENTER

"When we chose MicroMD EMR, all the physicians were comfortable with its organization and presentation of patient information."

*Doug Smith, chief executive officer and chief information officer
Community Partners HealthNet, Inc., Snow Hill, N.C.*

Specialty: ENDOCRINOLOGY

"We selected MicroMD as our practice management solution after an extensive national search. On each crucial product point in our final selection process (price, client references, longevity in the market, scope of functionality in the base product, product support, and ease of use), MicroMD was by far the best choice for our practice."

*John Long, practice administrator
Diabetes & Endocrinology Associates, Decatur, Ga.*

Specialty: COMMUNITY HEALTH CENTER

"After we decided to replace our system, we evaluated twelve alternatives. Of the four systems on our short list that offer FQHC-specific functionality for community health centers, MicroMD PM was the most full-featured and the most affordable."

*Hilton Perez, M.D, M.B.A., president and chief executive officer
Midland Community Healthcare Services, Midland, Texas*

Specialty: ORTHOPEDIC

"MicroMD remains as reliable and progressive a system as it was when we first purchased it more than five years ago. Updates are consistent and steady."

*Sherry Sarvis, practice manager
The Center for Orthopedic Surgery, Inc., Garfield Heights, Ohio*

Specialty: NEUROLOGY

"When we had vendor presentations and demos, MicroMD stood out head and shoulders above the rest. It offered the most robust functionality, with excellent scheduling and reporting, yet cost less than half of other practice management systems we considered. It just goes to show that going with the biggest vendor that charges the biggest price doesn't mean you'll get the best system."

*Shepard S. Averitt, IV, administrator
Carolina Neurological Clinic, Charlotte, N.C.*

Specialty: HEMATOLOGY AND ONCOLOGY

"We've hired no additional administrative staff in spite of 30 percent to 35 percent growth in business volume since the MicroMD installation. And we have reduced our receivables by a full 20 percent. This benefit alone more than paid for the system."

*Rita Lopez, R.N., practice administrator
Blood & Cancer Center, Canfield, Ohio*

Specialty: UROLOGY

"With increased patient volume and revenue, plus improved cash flow, Scioto Valley Urology achieved a positive return-on-investment on the purchase of MicroMD PM software and the hardware in six months."

*Linda Magee, M.B.A., Business Manager
Scioto Valley Urology, Inc., Columbus, Ohio*

Specialty: OB/GYN

"MicroMD met all our requirements. Plus, Henry Schein Medical Systems has a good track record for ongoing software improvement."

*Lily Fitch, administrator
Colorado West WomanCare, P.C., Grand Junction, Colo.*

Specialty: MULTI-SPECIALTY

"MicroMD was selected by our team because it was judged fastest to install, exceeded functionality and usability requirements, and cost 25 percent less than other options based on a three-year analysis of license, maintenance and support costs."

*Dewayne Oberlander, executive director
Columbia Medical Practice, Columbia, Md.*
